FOR IMMEDIATE RELEASE

Habitat Contemporary Gallery is pleased to present "**As Near As I Am Far**", featuring works by Adrienne Egger

Best known for her crowd-stopping figurative paintings, Adrienne's prize-winning style – like many aspects of her life – defies easy categorization. Harnessing aspects of narrative, impressionism and expressionism, her innately curious nature seeks new means and experiments with a variety of materials in order to capture feelings, culture and humanity. For there, between her easy smile and light touch, lies the true gift of the artist.

Through a life spanning nearly 5 decades spent equally on two continents, she has come to understand that we are all the same, wanting to be understood. This is reflected in the international scope of her collector base, private & corporate, found everywhere from Hong Kong, San Francisco, Aspen, New York, London, Ibiza, Paris, Hamburg, Vienna, and München, to a charity auction at a polo tournament in St Moritz, the living room of Austrian rock'n'roller Andreas Gabalier, or even your neighbor down the street.
